Re: Donation to the Monterey High School Baseball Program Artificial Turf Field Fund

Dear Dr. Pierri:

On behalf of the Monterey Peninsula Unified School District, Monterey High School, The Monterey High School Baseball Program and myself, I'd like to personally thank you for your generosity and kindness! Your gift to Phase II of the Monterey High School Baseball Program Artificial Field Fund.

In an era where kids are constantly looking for a place to belong and youth programs are underfunded or not funded at all, your donation helps us to provide one of those places. Through extensive fundraising efforts in 2012, Phase I of this project (the infield) was built in January and February of 2013. However, it is not fully paid for and your generous donation will help us raise enough funds to start Phase II in December 2013. Artificial surface for our infield will save our program over \$6,000 per year to install natural grass, and the City over \$20,000 per year in maintenance costs, as well as create a safer surface for our student-athletes to play on. Thank you! Without you, we could not provide this program for our kids.

Again, thank you for your generosity, commitment, trust and support!

Sincerely,

A handwritten signature in black ink, appearing to read "M.J. Groves".
